

Custom Cable Sets

1

1) 5 Wire Set – EZ1016 Female Cam-Loks to a reusable terminated tail. Color phased at the terminated tail for ease of identification. Can be built with No. 4 cable to 4/0 portable power cable.

2) Stage Stringers – Single or three phase available. Heavy duty black rubber boxes are excellent for stage use. Custom spacing to fit your exact needs.

2

3

3) EZ1016 Cam-Loks – Available in 8 different colors. Green, White, Black, Red, Blue used for 120 volt – 240 volt identification. Brown, Orange, and Yellow – used for 208 volt – 480 volt applications.

4) Terminated Tails – J Custom Supply can build terminated tails (example shown on 4/0 portable power cable). This is a proven advantage to prevent having to repeatedly cut the cable when tying in to power. Available with #4 – 4/0 portable power cable.
