

BATES® 60A and 100A Inline Plugs and Connectors

advanced devices

- Precision slotted male and female contacts are sized to provide spring contact, even on damaged pins.
- Individual wiring channels assure lead separation.
- Wire shoes prevent strands of conductors from straying. Wire shoes can be compressed by the terminal screw or pre-crimped with tool. Appropriate shoes are included with both inline and panel mount devices.
- Male and female contacts "float" to ensure positive alignment and contact.
- 2 piece, multi-position strain relief inserts accommodate a full range of wiring configurations.
- Through hole, provided in both male and female, permits lashing connectors together.
- Oversized wiring compartment allows for a variety of wire sizes and configurations.
- Double set screw barrel terminations assures a positive unbreakable connection.
- Housings are high temperature and impact resistant. Will not chip or crack.
- 100A 250V also available in yellow.

Bates 60A and 100A 125V plugs and connectors are available in black only.

Bates® stagepin devices are the premier stagepins on the market today.
