

# Brass Jaw Test Clamps

**This TRICO Test Clamp Never Lets Go.  
Jack Screw and Internal Wedge Design hold it together.  
Twist-of-the wrist locks it like a vice.**

**Type  
BS**

Tempered brass construction promotes improved electricity flow.

Shock-proof handle is hollow, provides cable a path for temporary jumps or testing.

Locks tight on flat or round objects.

Rated with solid copper wire

Offers tight connection, excellent for testing meters, radios, and instruments.

Handy for grounding portable equipment such as flood lights, saws, welders, sanding machines and floor polishers.

## Extra Strength - Locks Like A Vice!

- Available only with solder type installation. We recommend installation only by JCSI or experienced personnel.
- Custom assembly available with Trico Clamp to EZ1016 Female Cam-Loks.
- Made to order any length with No. 2 or No. 4 entertainment cable.
- Caps and lanyards in colors are optional.
