Cam to Cam Cable Sets

- **Our custom jumpers provide years of safe, dependable service. Many are still in service after 25 years of continuous use.**
- **All JCSI custom jumpers are designed and assembled to the customer's specifications using industry standard Marinco CLS 16 series cams. Other manufacturers' cams are available upon request.**
- **All JCSI custom jumpers are assembled with quality Carol brand type "SC" portable power cable to combine ruggedness with ease of use. Carol cable remains flexible even at freezing temperatures.**

Part Number Matrix

J-J AA BBB CC XXXFT DD

Where J-J indicates a jumper (cable with cams on both ends)

AA indicates Cable Size (#6, #4, #2, #1, 1/0, 2/0, 3/0, 4/0)

BBB indicates the brand of cam (CLS = Marinco, EZ= Camlok™, L = Leviton)

CC indicates the number of cables in the set (1W = one cable, 4W = four cables, 5W = five cables)

XXXFT indicates the length of the cable in feet before the cams are installed

DD indicates the color of the cams (BK = Black, RD = Red, BL =Blue, WT = White, GR = Green, BR = Brown, OR = Orange, YL = Yellow) Usually no color is shown for a multi wire set as four wire sets are generally Black, Red, White and Green, and five wire sets are Black, Red, Blue, White and Green.

Here is an example: **J-J#1CLS1W100FTBK**

This is a jumper, #1AWG size cable, using CLS cams, one cable, 100 feet long with black cams.

NOTE: We do not offer cables with colored insulation as the colorant does not stand up well to UV exposure, such as strong sun light.

Many custom variations are available such as reduced sized grounds, custom color combinations, banding of cables together, and custom name labels on the cable. If you don't see what you need, just give us a call at 800-226-5657
