

“Tails”

Cam to Bare End Cable Sets

- All JCSI custom tails are designed and assembled to the customer's specifications using industry standard Marinco CLS 16 series cams. Other manufacturers' cams are available upon request.
- All JCSI custom tails are assembled with quality Carol brand type “SC” portable power cable to combine ruggedness with ease of use. Carol cable remains flexible even at freezing temperatures.
- A JCSI exclusive is our “terminated tail” – shown above, this is a hardened solid copper lug the same size as the bare copper wire for ease of installing under a lug connection.

Part Number Matrix

J-T AA BBB CC XXXFT DD YY TT

Where J-T indicates a tail (a cable with a cam on one end only)

AA indicates Cable Size (#6, #4, #2, #1, 1/0, 2/0, 3/0, 4/0)

BBB indicates the brand of cam (CLS = Marinco, EZ= Camlok™, L = Leviton)

CC indicates the number of cables in the set (1W = one cable, 4W = four cables, 5W = five cables)

XXXFT indicates the length of the cable in feet before the cams are installed. Tails over ten (10) feet long may not be accepted by the local electrical inspector.

DD indicates the color of the cams (BK = Black, RD = Red, BL =Blue, WT = White, GR = Green, BR = Brown, OR = Orange, YL = Yellow) Usually no color is shown for a multi wire set as four wire sets are generally Black, Red, White and Green, and five wire sets are Black, Red, Blue, White and Green. The bare ends are marked with a colored band corresponding to the cam color of that tail.

YY indicates if the cam end(s) are mail or female (FE = Female MA = Male)

TT indicates a “terminated tail”

Here is an example: **J-T2/0CLS5W10FTTT**

This is a set of tails, using 2/0 size cable, using CLS cams, five cables, 10 feet long with black, red, blue, white and green cams and terminated tails.

Along with the terminated tail, many other custom variations are available. including custom name labels on the cable. If you don't see what you need, just give us a call at 800-226-5657

A Few Common Tail Part Numbers:

J-T4/0CLS1W10FTBKFE – Tail, 4/0 Type SC cable, Marinco cams, single cable, 10 ft long, black, female cam

J-T4/0CLS1W10FTRDFE – Tail, 4/0 Type SC cable, Marinco cams, single cable, 10 ft long, red, female cam

J-T4/0CLS1W10FTWTFE – Tail, 4/0 Type SC cable, Marinco cams, single cable, 10 ft long, white female cam

J-T4/0CLS1W10FTGR – Tail, 4/0 Type SC cable, Marinco cams, single cable, 10 ft long, green female cam.

J-T4/0CLS1W10FTBL – Tail, 4/0 Type SC cable, Marinco cams, single cable, 10 ft long, blue

J-T4/0CLS5W3FTFE – Tail, 4/0 Type SC cable, Marinco cams, five cable set, 3 ft long, Black, Red, Blue, White and Green female cams

J-T2/0CLS5W3FTFE – Tail, 2/0 Type SC cable, Marinco cams, five cable set, 3 ft long Black, Red, Blue, White and Green female cams

J-T1/0CLS5W3FTMA – Tail, 1/0 Type SC cable, Marinco cams, five cable set, 3 ft long Black, Red, Blue, White and Green male cams

J-T1/0CLS5W3FTMATT – Tail, 1/0 Type SC cable, Marinco cams, five cable set, 3 ft long, Black, Red, Blue, White and Green male cams and terminated tails
